FEATURES

The Acerbis Airstrike-C helmet is the new top-of-the-line off-road helmet designed to be the benchmark in the category. It combines lightness, safety, comfort, advanced tech, and a full set of accessories.

This totally new, high-performance product is the result of extensive work by Acerbis's R&D team, testers, and riders.

The shell is made of carbon fiber and comes in two sizes, just like the inner EPS foam liners, and it's compatible with all modern neck braces. The design is sleek and aggressive, merging European and American styles in a unique way.

Every detail has been optimized for maximum performance and ease of use, both during races and training. For example, the air intakes are screwed onto the shell and can be removed for cleaning and maintenance.

The peak attaches to the shell without screws for easy handling and a clean, streamlined look.

The shell design is also made for perfect mask strap placement, with a thicker gasket around the area that helps improve grip. The front opening is designed to provide a wider field of vision and makes the helmet compatible with all large goggles.

In terms of safety, the helmet features a lightweight double-D ring chin strap made of red anodized aluminum.

The removable, hypoallergenic, breathable, and washable inner padding is made from soft-touch fabrics that are great at wicking moisture away.

The helmet also includes the new A.C.S. (Acerbis Comfort System), which uses elastics and small rubber suction cups for a better fit and ventilation on top of your head.

Ventilation is top-notch, with 4 air intakes and 6 exhaust vents. The cheek pads have a new attachment system for easier removal, plus silicone logos on the padding to help identify the release points.

The helmet also features a Quick Release System for quick removal in case of an emergency.

Acerbis delivers an impressive helmet not only in performance but also in features: the Airstrike-C comes with a camera mount, an extended peak for extra protection from the sun, water, and mud, and a spare screw kit.

At just 1150g ± 50g, this helmet is one of the lightest ECE 2206 certified helmets on the market.

Overall, the Acerbis Airstrike-C is perfect for off-road enthusiasts who want a helmet that's safe, comfortable, and packed with top-tier features.

Outer shell: Carbon fiber
Approval: ECE 22-06
Double outer shell and double inner shell
Ventilation: 4 intakes-6 extractors
Additional systems: A.C.S.
Additional systems: QRS Emergency
Double ring closure strap.
Equipment: helmet bag + accessory/spare parts kit (support chamber - peak extension - tools - spare screws)
Weight: 1150 +/-50 g

FEATURES

The T711 helmet inspired by an American style is the result of research and innovation, able to encapsulate the highest quality performance and safety. Helmet made of fiber with a double outer shell and a full shell that guarantee lightness and rigidity to the product. The visor with adjustable length, in the final part, the result of careful collaboration between the technical team and the riders, allowed to ensure less impact of mud on the mask during the race. The 18 air intakes in the helmet ensure excellent air flow so as to achieve excellent breathability. All this aided by the soft touch system that ensures high moisture evacuation. The provision of the hydration system allows the rider constant water consumption even during longer rides.

Outer shell: fiber glass.
ECE/ONU 22-06 HOMOLOGATION.
Double outer shell, double inner shell.
WEIGHT 1100g +- 50g in size "M".
18 air intakes
Double ring strap closure.
Shell compatible with Neck Brace.
Soft touch interior for effective humidity release.
Removable, hypo-allergenic and washable interior.
Peak with adjustable length and integrated magnet in the center to facilitate the positioning

0026828.040

0026828.091

FEATURES

The Acerbis Whoops is the new off-road helmet designed for younger riders, ECE 2206 certified. With its American style, attention to detail, and technical features developed from the helmets used by Acerbis riders, the Whoops is set to be a top choice. The outer shell, made from thermoplastic material, features two inner liners to cover sizes from XS to XXL.

This helmet offers excellent ventilation with five air intakes and five rear exhausts. The double-D chin strap, similar to those used by professional riders, ensures a secure fit. The Whoops is designed to accommodate modern communication systems with 45mm speakers, the largest size available, making it perfect for off-road riders. It's also neck brace compatible for maximum safety.

The inner padding is fully removable, washable, and made from soft-touch materials that provide excellent moisture wicking. Its hypoallergenic and breathable fabrics ensure comfort even in extreme conditions and hot climates.

Whether you're doing enduro, motocross, or even riding your motard to school, the Acerbis Whoops is the perfect helmet for young riders. And when you're a pro, you'll always remember your Whoops—the first helmet is unforgettable!

FEATURES

The new Attack helmet designed for the modern explorer, our fiber Adventure helmet is the perfect combination of light weight, strength and aerodynamics.

Ideal for those who enjoy tackling rough terrain and long road rides, this helmet was created to ensure optimal performance even at high speeds while maintaining high comfort. The shell is made of fiber, which provides exceptional strength with a low weight of 1450 g $\pm$ 50 g in size "M." Thanks to the front and upper air intakes, fresh air is precisely channeled to provide effective ventilation, ensuring coolness even on the hottest days. Thanks also to the rear outlet that allows hot air to be quickly expelled, constantly maintaining an optimal internal temperature. The aerodynamic design of the helmet was developed to minimize air resistance, contributing to a smoother and more stable ride even at high speeds. A huge step forward was taken with the innovative aerodynamic peak, fixed at 4 points instead of the traditional 3, which ensures maximum strength and stability, whatever the circumstances.

The panoramic visor, treated with an anti-scratch and anti-fog coating thanks also to the possibility of inserting PINLOCK, offers a wide and clear field of vision, improving safety on and off the road. The helmet also features a fully removable and washable interior made of hypoallergenic and breathable fabric to ensure lasting comfort even during the most demanding rides. The double-ring closure system ensures maximum security.

Double fiber glass outer shell

Double inner shell

ECE/ONU 22-06 HOMOLOGATION

Integrated sun visor operated by a slider

Transparent visor with quick release system

Double ring strap closure

Designed for PINLOCK 70 Max Vision accessory installation.

Suitable for aftermarket intercom earphones (max. Ø 50mm / h 5mm).

Removable, hypo-allergenic, breathable and washable interior.

Removable chin curtain.

WEIGHT 1450g $\pm$ 50g in size "M"

0026652.457

FEATURES

Get ready for adventure with the Assault adventure helmet, designed for those who live the road without limits. This full-face helmet combines protection and comfort, making it the ideal companion for your every journey. The advanced aerodynamic design, tested in the most extreme conditions, gives you a smooth and quiet riding experience while minimizing turbulence. The high-strength clear visor gives you a crisp, clear view in all weather conditions. When the sun gets intense, lower the inner sun visor with a simple flip, never interrupting your ride. Thanks to the visor's quick release, the helmet can become an off-road helmet in seconds, this allows for helmet adaptability in any circumstance. Whether you are taking on an off-road adventure or a long road march, the Assault helmet is the ideal companion for any kind of journey.

The innovative aerodynamic peak, fixed at 4 points instead of the traditional 3 ensures maximum strength and stability, whatever the circumstances
Removable quick release visor for off road use
Integrated sun visor operated by a slider
ECE/ONU 22-06 HOMOLOGATION

PINLOCK 70 MAX
VISION ATTACK
0026635

PINLOCK 70
MaxVision™

0026635.120

0026635.120

FEATURES

A Pinlock® lens is made to enjoy a fog-free ride. It is based on two key principles to ensure a fog-free vision. The moisture absorbing surface of the lens effectively attracts and stores water molecules, while the airtight seal creates a thermal barrier together preventing condensation of the visor. The system is kept in place by positioning the lens between two adjustable pins, making Pinlock the number one anti-fog solution for helmets.

PINLOCK 70
MaxVision™

PINLOCK

0024544.120

FEATURES

A Pinlock® lens is made to enjoy a fog-free ride. It is based on two key principles to ensure a fog-free vision. The moisture absorbing surface of the lens effectively attracts and stores water molecules, while the airtight seal creates a thermal barrier together preventing condensation of the visor. The system is kept in place by positioning the lens between two adjustable pins, making Pinlock the number one anti-fog solution for helmets.
