

DENSITY VEST  
0026741

0026741.318

FEATURES

<p>At Acerbis, one of our core missions is to provide the highest level of protection—for both the rider and the bike. Introducing the Density Vest, a breakthrough in body armor made with innovative yarn weaving technology.</p> <p>This new design delivers exceptional breathability, elasticity, and softness. With strategically placed ventilation zones and muscle compression areas, the Density Vest ensures maximum performance, comfort during intense activity, and reduced recovery time.</p> <p>Ideal for off-road riders (motocross, enduro, rally), as well as road-adventure and MTB Gravity/E-MTB enthusiasts, the Density Vest blends high performance with striking aesthetics. It is CE EN 17092-6:2020 certified and features level 1 rigid protectors on the front and back, along with shoulder and elbow protection.</p>	<p>Thanks to its tear- and abrasion-resistant seams and fabric, the Density Vest can be worn as a standalone garment—something most protective gear can't offer. It combines the lightweight feel of a base layer with the robust protection of traditional body armor.</p> <p>Fastened with a convenient SBS side zipper, the Density Vest is ready to become your go-to companion for every ride.</p> <p>Certifications &amp; Protective Features:</p> <p>Garment: Compliant with EN 17092-6:2020 – Protective clothing for motorcyclists</p> <p>Back Protector: Certified to EN 1621-2:2014, Level 1</p> <p>Chest Protector: Certified to EN 1621-3:2018, Level 1</p> <p>Performance Characteristics:</p> <p>High resistance to impact abrasion</p> <p>Durable stitching and secure structural closures</p> <p>Excellent tear resistance</p>

FLUX AIR VEST  
0026742

0026742.090

FEATURES

Acerbis Flux Air Vest is a body-armour designed for all offroad but also adventure-touring practices. Comfort, practicality, protection: these are the main strengths of a product that will guarantee you maximum freedom of movement, reference ventilation and excellent shock absorption at the most exposed points: chest, back. Flux Air Vest, which is certified EN 17092-6:2020 C, offers a structure made of high breathability/elasticity mesh fabric that accommodates D30 protectors able to remain soft and comfortable in common use and to harden, protecting the body, in case of impact. Chest protection is level 1 while back protection is level 2. Flux Air Vest is the perfect protective body-armour for motocross, enduro, adventuring, touring but also for MTB thanks to its great lightness and freshness. This body-armour signed Acerbis is worn with the utmost ease thanks to the ergonomic study of the technicians and closes with a practical SBS side zipper that runs along the entire product. The perfect fit is achieved thanks to the adjustment elastics that connect the back to the chest protector. The D30 protectors are obviously removable so the product is easily washable. Are you ready to discover Flux Air Vest? You'll forget you're wearing a protective vest. You'll only think about riding and having fun.

Materials: PU, EVA, POLYESTER, NYLON

BODY ARMOUR FLUX  
AIR  
0026407

0026407.090

FEATURES

The Body armour Flux Air is made of highly breathable mesh fabric with incredible stretch and softness.  
CE-certified D30 protectors provide excellent shock absorption.  
The strength of these protectors is that they provide flexibility and comfort without sacrificing impact performance or movement on the bike, but they harden instantly upon impact.  
This protector conforms to the body, protecting against sudden blows while providing great freedom of movement, both in high and low temperatures, and maximum ventilation.  
The elastic band connecting the back to the chest provides additional adjustment.

Internal protectors are removable for complete jersey washing.  
DETAILS:  
Breathability provided by the use of mesh fabric.  
Chest, back, shoulder, elbow D30 protectors.  
SBS side zipper.  
EN 17092-6:2020 referring to Protective clothing for motorcyclists guaranteeing:

BODY ARMOUR  
PLASMA KID  
0026315

0026315.318

FEATURES

<p>The Plasma JR Body armour is a protector designed for children 7 to 12 years old, CE certified that offers excellent body protection against impact. This construction combines the lightness/action of a motocross body armour and the protection of a body armour. Featuring an innovative multilayer of soft materials with high impact absorption for: ventilation, protection, light weight and flexibility. Soft torso protectors conform to the body, two viscoelastic layers are constrained by semi-rigid outer biofoam, for more impact-absorbing protection, better fitting and durability in use. Removable shoulder and elbow protectors, are attached to sleeves of perforated stretch fabric, designed to provide high breathability and adherence to the arms. The sleeves themselves attach to the shoulder straps of the body armour, which leaves the sides free of fabric to increase heat exchange and breathability.</p>	<p>The low thickness and softness of the torso and back protection are designed for neck-brace use EN 17092-6:2020 referring to Protective clothing for motorcyclists. BACK PROTECTOR certified EN 1621-2:2014 level 1 SHOULDER AND ELBOW PROTECTION certified EN 1621-1:2012 level 1 FRONT certified EN 1621-3:2018 level 1 HD biofoam protectors with EVA padding on chest and back. Memory foam shoulder and elbow protectors for high shock absorption. Breathability provided by perforated high-intensity biofoam and fabric underneath also perforated. Side closures via Velcro and Velcro waist band. Side adjustments via elastic bands and waist band. A logo insert on front and back protectors. TPR Acerbis logo on back and Acerbis logo on TPR side velcro.</p>

FEATURES

Specifically designed for use in motorcycle, and bicycle activities both off-road and on-road.  
Back support designed to support the lumbar area and reduce stress on the muscles and vertebral arches and help relieve lower back pain naturally.  
The 4 steel reinforcing splints provide superior lumbar stability.  
Dual adjustment straps allow you to customize the fit of the brace and adjust compression.

Perforated elastic provides excellent breathability.  
The brace's flexibility allows free movement during sports activity.  
Breathable fabric  
Closure and adjustment by Velcro  
Printed logo

0024966.326

FEATURES

**CONSTRUCTION AND DESIGN:**  
Innovative multilayer of soft materials with high impact absorption: ventilation, protection, lightness, and flexibility  
The bust protectors are soft and pre-shaped, they adapt to the female anatomy, three viscoelastic layers are bound by semi-rigid external biofoam, for greater shock-absorbing protection, better fitting and durability in use  
The bib leaves the ribs free from fabric to increase heat exchange and breathability  
Elastic waistband with the possibility of being removed: adjustable in extension and rotation

The low thickness and the softness of the chest and back protection are designed for the use of the neck-brace  
Adaptability to different body sizes thanks to velcro adjustments on the shoulders and elastic bands on the ribs  
**BODY PROTECTIONS:**  
Chest protection with EN 1621-3 CE LEVEL 2 approval  
Back protector with EN 1621-2 CE LEVEL 2 approval  
Padded ribs  
**SIZES:** SINGLE THAT GOES FROM “S” to “XL” (from 150cm to 180cm) thanks to the possibility of adjusting the shoulder straps.

FEATURES

Innovative nest-texture for plastic parts: ventilation, protection, light weight  
Plastic plates adapting to the body, fitted on soft biofoam, for a better shock-absorbing protection and body-fitting  
The innovative design combines the light weight/ventilation of a cross chest protector and a body armour protection: the shoulder and elbow protectors are fitted on sleeves of perforated stretch fabric, designed to guarantee high breathability and adherence to the arms. The sleeves themselves are attached to the padded shoulder straps of the chest protector, leaving the ribs free of fabric to increase heat exchange and breathability.

Removable back and front protection to accommodate the neck-brace  
Adaptability to different body sizes thanks to adjustments on the sides  
BODY PROTECTION  
Chest protection EN1621-3:2018 LEVEL 2 certified  
Back protector EN1621-2:2014 EC LEVEL 2 certified  
Shoulder and elbow protection extended in soft material EN1621-1:2012 LEVEL 1 certified  
Semi-rigid rib protectors with stone shield approval EN 14021:2003
